

New Horizon Technology T1 Connectivity Service

Whether your company is accessing the Internet, sharing resources from office to office, run mission critical applications, you will be able to broaden your customer base and increase revenue with our Business T1. Our business T1 is an affordable, business-class high-speed solution that offers 99.9% guaranteed uptime backed by superior customer service and support.

Benefits:

- Competitive Rates
- Best-in-class SLAs
- Fast access to the Internet
- Flexible installation options
- 24x7 monitoring and support

With today's technology we can deliver speeds starting at 384Kbs and up to 12Mbs with our T1 bonding product, a full MPLS private network to share resources with remote offices, priority and dedicated access T1s for New Horizon Technology Hosted VoIP services with the best prices available. All New Horizon Technology services include a 24/7/365 Level 1 Technical Support and a 24/7/365 on call NOC staff to fulfill provided Service Level Agreements.
